

NBR HEAT SINKS FOR POWER MODULES

Fits all industry standard power modules with 80 mm mounting centers.
Also used for any isolated power devices that require superior cooling.

Features & Benefits

- Replaces Wakefield 860 series
- Convenient assembled kit
- Gold iridite plating reduces corrosion
- Ideal for power modules, IGBT's, solid state relays, bridge rectifiers and all other isolated base power electronics

Includes air guides, 120 volt AC fan, fan cord and finger guard.

Optional Items

The FCHS series is also available with 12 or 24 volt DC fans or a 240 volt AC fan. Buss bars for power modules and snubber kits are also available.

Description	Part #	Price
120 mm length, 120 volt AC fan	FCHS120-AC120	79.00
180 mm length, 120 volt AC fan	FCHS180-AC120	99.00
300 mm length, 120 volt AC fan	FCHS300-AC120	139.00
