Solid Performance Since 1975

Galco strives to offer you the best possible solutions to all your industrial control repair needs. It is our business to provide you with the products and services that assist you in maintaining a constant flow in your production and manufacturing schedules.

With these goals in mind, we have developed a program whereby you can immediately obtain a replacement unit to get you out of a "down" situation. All reconditioned controls sold by Galco are fully functional and covered by a 12-month warranty on circuit boards and a six-month warranty on complete controls. These reconditioned units are sold at such an attractive price that it is often in your best interest to consider stocking spare controls to make future equipment failures as trouble-free as possible.

Immediate availability of all the top brands...

How to Order

Reconditioned items are subject to availability and prior sale. Please call your Galco service representative to check stock before ordering.

If you have an exchange, or would like to send in your defective unit for repair and return, please call Galco's service department and discount pricing will be negotiated. Volume discounts are also available. All exchanges are subject to repairability.
