### Standard Items

#### **80T-IR Non-Contact Infrared Temperature Probe**

- Instantly measure temperature from -18°C to 260°C (0°-500°F)
- Ideal for maintenance applications where object to be measured is hazardous, moving, easily contaminated or difficult to reach
- Highly repeatable readings
- Senses and converts infrared energy emitted from an object on a DMM or Digital Thermometer display
- Results displayed in °C or °F: 1mVdc per °C or °F output
- Automatic shutoff after 10 minutes of operation saves battery life

#### **80T-150U Universal Temperature Probe**

- High accuracy temperature probe suitable for air, surface, non-corrosive liquids
- For low voltage environments (under 24Vac, 60Vdc)
- Fast responding
- Switch selectable for °C or °F
- Standard 9V battery
- Battery test instructions included

#### **C789 Soft Carry Case**

- Roomy center storage area for meter (accommodates meters up to 9.7"L x 5.4"W x 2.75"D)
- Case doubles as a stand no need to remove DMM for use
- Two side storage areas for temperature probes, other accessories
- Convenient carry strap makes transport easier
