

Weller®

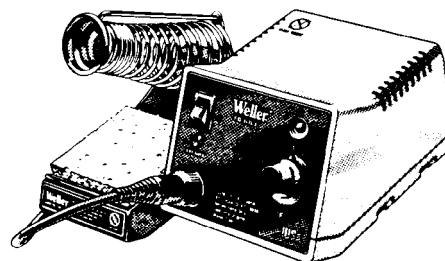

SOLDERING STATIONS AND AIREX FUME EXTRACTION SYSTEMS

High Quality Precision Solder Stations equipped with fume extraction Irons

Weller's stations with fume extraction offer peace of mind and insurance against noxious fumes from solder smoke affecting operators health as well as surrounding environment.

Features

- ESD safe
- Impact resistant case protects station electronics
- Adjustable stainless steel exhaust tube for precise positioning over your work
- 7 ft. ESD-safe tubing provides operator flexibility and comfort
- Protects operators by removing fumes at the soldering tip BEFORE they can be inhaled
- Built for continuous duty

TC201FE

Description	Part #	Price
Station, Iron & Tip w/power control	EC10021FE	315.78
Station, Iron & Tip, w/power control, LED display	EC2002M1FE	382.87
Station, Iron & Tip, w/controlled output	WCTPTFE	CALL

Low Cost, High Quality, Extraction System

Airex system connects to iron and compressed air system to ensure solder work areas are free from noxious gasses caused by soldering jobs.

Features & Benefits

- Airex system filters 99.97% of particles ensures a healthier workplace
- Small size
- Use with fume extracting irons or retrofit standard irons with clip-on extractor kits
- Comes ready to hook-up with 5 ft. of extractor hose and 3 ft. compressed air hose
- Will not disturb others in surrounding work areas

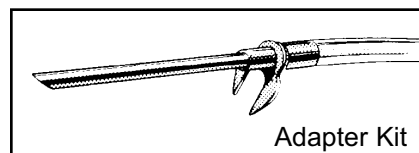

Description	Part #	Price
Airex Fume Extraction System	WAX1	324.37
Kit for dual irons*	WAXK2	55.61

* Also available for to retrofit soldering stations EC10021FE, EC2002M1FE, and WCTPTFE

Optional Items

- Replacement extractor hose
- Replacement filter
- Replacement silencer filter
- High quality precision solder stations equipped with fume extraction iron.

Adapter Kit

Description	Part #	Price
Replacement extractor hose	WAXH1	9.33
Replacement filter	WAXF1	200.23
Replacement silencer filter	WAXSF1	5.64
Fume extract adapter kit/900 Series	AKFE2	61.23
Fume extract adapter kit/WP25-35	AKFE3	52.44
