BIGSHOT™

Trap Blister Packaging:

- Eliminates excess waste
- PET packaging
- 15% Package size reduction

Metal Gear® Series:

The 150 Lumen LED Metal Gear® Focusing Flashlight features Dorcy's exclusive TrueSpot® reflector technology, providing world class brightness and an intense beam of light through that projects a 130 meter beam distance.

The flashlight is constructed of aluminum alloy, and contains a polycarbonate optic magnification lens making it extremely durable. The LED flashlight is o-ring sealed against dust and moisture making it weather resistant.

The Metal Gear® flashlight has an adjustable focusing head allowing to adjust from a wide field flood beam to a small spot beam.

This flashlight has a two-way tail cap switch offering either a momentary "ON / OFF" capability or a constant "ON" feature, utilizing a push button for momentary-pause or a twist for constant illumination.

The 150 Lumen LED Metal Gear® Focusing Flashlight comes complete with 3 AA cell batteries, allowing for 3 hours of continuous use.
